STEVENS' SWISS-RIBBED UNION SUITS, FASHODA BRAND.

NEARLY every woman in America is familiar with Swiss-ribbed fabrics in underwear. This fabric is knitted on automatic machines, which produce a much softer and smoother surface than can be made on hand looms. In placing these beautiful Swiss garments before our patrons, we know that not only are the fabrics the finest and softest produced, but the garments are also perfect fitting and well finished, and from 25 to 35 per cent lower in price than is usually offered.

There is no slipping or shifting of either corset or stocking, which gives natural freedom to the wearer. It also allows of less underclothing being worn, as it affords full protection to the limbs; no garters of any kind are required. Gives more scope to the new shaped dress skirts, allowing them to fit more snugly around the hips. They are made of cotton, lisle thread or cashmere.

STEVENS' FINE DRESS SILKS.

THEY are the standard of America. That is why we are known as The Silk Store. We sell three times as much silk through the mails as any other house, due to the fact that we sell only strictly dependable qualities, and by our great purchasing power we are enabled to price them as low as inferior qualities are usually sold elsewhere. Selling, as we do, three times as much as any other house, we are naturally the largest buyers, which enables us to buy cheaper and, therefore, can afford to give best values for the same prices.
